

REPORTS FROM FLOOD CENTERS

SITUATION CONTINUES TO BECOME FOR MENACING.

Two Levees Break Near Chester, Ill., Inundating 30,000 Acres of Land—Residents of Lowlands Warned to Seek Higher Ground.

Memphis, Tenn., April 4.—Both the Mobile and Ohio and Big Four railroad levees at Cairo have collapsed, according to a dispatch received here early this morning. Four hundred men are reported marooned on the Big Four levee and a steamer is going to their assistance. No loss of life occurred.

The area affected by the flood caused by almost an unprecedented volume of water in the Mississippi river was not extended a great deal yesterday, but the situation at the damaged centers continued last night to become more menacing. But two more levee breaks were reported. These were near Chester, Ill., where 30,000 acres of farming land was inundated.

Twelve hours of sunshine and a slight check in the river's rise have combined to give the general situation a more optimistic outlook. In the opinion of government engineers, who said tonight if the stage at Memphis does not go over 45 feet the government levees will hold.

The weather forecast at Memphis, however, asked managers of railroads entering that city from the west to warn inhabitants of those districts to move to higher ground immediately.

The number of lives lost was brought to seven today when the death of three railroad men near Fulton, Ky., was reported and two more were drowned near Clarksville, Tenn., early yesterday morning. The latter drove off the road into overflow water of the Red river. That the loss of life has not been greater is due to the warning given lowland dwellers of the coming high water.

Hickman, Ky., is the worst sufferers. The 2,000 homeless inhabitants of the town were augmented today by the arrival of 1,000 refugees from Hickman, Mo. The food supply at Hickman will last but three more days. No trains have been run in or out of the town for several days. At Columbus, Ky., which was the first town to be inundated, the situation is grave. Residents are leaving rapidly and there is much suffering in outlying districts. The damage in that vicinity is estimated at \$100,000.

The damage at Memphis is conservatively estimated at \$350,000. About 1,300 persons have been driven from their homes. Charitable organizations are taxed to their capacity.

The seriousness of the situation is not limited to river towns. Small tributaries have overflowed their banks and it is estimated that fully 300,000 acres of farm lands in Kentucky, Tennessee, Missouri, Arkansas and Mississippi are flooded and probably 900,000 more are untitled because of fear that levees protecting them may break.

Situation at Cairo.—The flood situation here to night remains about the same as it was this morning. The gauge recorded 53.9 feet at sundown, a rise of only 3.1 foot since last night.

The river is now 1.7 feet higher than ever before. Latest predictions are that it will not pass the 64 foot mark. All levees around Cairo and the drainage district are safe to night. A great army of men is watching them and the railroads to day brought another thousand men into the city.

Mayor Parsons to night issued a bulletin in which he said: "Cairo is absolutely safe."

Railroads operating trains with considerable frequency. Big Four has abandoned service between Cairo and Mound City from the north. The Illinois Central is running all trains as usual, and the Mobile & Ohio has reported no trouble north of Cairo, but is using the Illinois Central tracks south of here.

The levees at Greenfield Landing, Mo., broke to day and the water is pouring into that section. More territory in this section is under water than was ever thought possible.

The entire Mississippi valley in this section is in distress and in need of prompt assistance.

Levee Broke.—Murphersboro, Ill., April 3.—The Degonia and Fountain bluff levee, 20 miles northwest of here, broke to day and 10,000 acres of farming lands were flooded. No loss of life was reported.

Many Blocks Submerged.—Memphis, Tenn., April 3.—Every hour to night sees the water making further encroachments in this city. Blocks in the northern part submerged to a depth of three feet and bayou Gayoso with three-quarters of its principal business flooded.

Hit by Street Car.—Chicago, April 3.—Charles Hill, 50 years old, of Bloomington, Ill., was knocked down by a street car here to day. One of his shoes was torn from the foot, but he was only slightly injured.

GOVERNOR OF BERMUDEA.—London, April 3.—Lieut. General Sir George Mackworth Bullock has been appointed governor of Bermuda to succeed the late Lieut. Gen. Sir Frederick Walter Kitchener.

RODGERS FELL TO HIS DEATH

KILLED WHILE MAKING AN OCEAN FLIGHT.

Fell 200 Feet and Buried in Wreck of Machine—Was First to Cross American Continent in an Aeroplane.

Long Beach, Cal., April 3.—Calbraith P. Rodgers, the first man to cross the American continent in an aeroplane, was killed here almost instantly at 3:15 this afternoon when his bi-plane, in which he had been soaring over the ocean, fell from a height of 200 feet and buried him in the wreck. His neck was broken and his body badly mangled by the engine of his machine. He lived but a few minutes. Rodgers, for a week had been making daily flights here and had taken up with him many passengers, both men and women. To day he started for his usual place and soared over the ocean, crossing the pier, and then turned and dipped close to a roller-coaster in a beach amusement park.

Seeing a flock of gulls disporting themselves upon a great shoal of sardines just over the breakers, Rodgers turned and dove down into them, scattering the sea fowl in all directions. Highly elated with the outcome of his dive, Rodgers then flew further out to sea, all the time gradually rising until he had reached a height of about 200 feet.

Crashed Into Surf. Making a short turn, he started at full speed for the pier. He suddenly dipped his planes and his machine began a frightful descent. Rodgers was seen by hundreds of persons on the pier to relax his hold on the levers and then, seemingly realizing that he was in danger, he made strenuous efforts to pull the nose of his machine into a level position. Failing in this, he managed to turn his craft further in shore and an instant later the craft crashed into the edge of the surf, not 500 feet from the spot, on December 10, last, he had finished his ocean-to-ocean flight.

Many men rushed to his aid. Ernest Scott and James Goodwin, life guards, were first to reach him. They said Rodgers' head was hanging over the wing of the machine, the heavy engine was on his back and his feet were drawn up, nearly doubling over his shoulders. Blood was flowing from his mouth. Rodgers was lifted from the wreck and hurried to the bath house hospital. He died on the way. Examination showed that Rodgers' neck, jaw bone and back had been broken.

Relatives Informed.—A telegram was sent to the aviator's widow, who lives in Pasadena, Cal., and a cablegram to his mother, Mrs. H. S. Schweitzer, who is now in London. The body was prepared for burial and sent to Pasadena to night.

The machine that Rodgers used to day was the one with which he won \$11,000 in prizes last July at the Chicago plans meeting. It was a total wreck, many parts having been swept out to sea by the tide.

Rodgers' cousin, Lieut. John Rodgers, U. S. N., is attached to the aeroplane section of the navy.

Charles Schaefer, a close friend of Rodgers' who came here on the special train that followed the aviator on his trans-continental trip, witnesses the accident. Charles Wiggins, Dayton, Ohio, whom Rodgers brought here to teach flying, stood on the pier and saw his friend fall.

Display of Recklessness.—In speaking of Rodgers' care-free spirit while in the air, Mr. Schaefer said he had taken many flights with Rodgers, but the most surprising example of recklessness he had ever seen was yesterday.

"We had climbed to a height of about 5,000 feet," said Schaefer, "and were off to the northeast. The wind was not strong, but puffy. Rodgers, feeling he was tired, lay back, folded his hands behind his head and stretched out his feet, seemingly enjoying the scenery. I said to him 'you better watch out.' Cal, the wind had got you.' He answered 'Oh, we're all right; she's ridden the wind before and she will ride it now.'"

Expressions of Regret.—New York, April 3.—Members of the Aero Club of America received the news that Calbraith P. Rodgers' death tonight with expressions of regret. After his epoch-making flight across the continent he was tendered a banquet by the club and honored with a gold medal.

Rodgers' trans-continental flight began at the Sheepshead Bay race track, Brooklyn, Sept. 17, 1911, was marked on the second day by a crash into a tree and interspersed with more serious accidents. When with in sight of Long Beach, his goal, he had a fall which laid him up for nearly a month.

MUSICAL PROGRAM ARRANGED.—A splendid program of music and readings, free to the public, will be given this afternoon at Brooklyn church in connection with the Easter bazaar. This will begin at 2 o'clock. Miss Joy White will sing and Miss Minnie Alkire will give several readings. In the evening Edward Johnson's orchestra will furnish music. A large crowd is expected.

PLAYED CLOSE GAME.—Washington, April 3.—The New York Nationals defeated the Washington Americans for the second time here today, 6 to 5. The Washington team went to pieces in the ninth inning and New York scored four runs and the game.

WELL RECEIVED IN KENTUCKY

LARGE CROWDS GATHER TO HEAR ROOSEVELT.

Disputes Taft's Statement That He Is a Progressive—Criticism Certain Part of Record of Administration Sharply.

Louisville, Ky., April 3.—President Taft's statement that he is a progressive was disputed by Col. Roosevelt in a speech here to night. The former president said Mr. Taft in some of his acts had shown himself to be a reactionary. In spite of this contention Col. Roosevelt went over the record of the present administration in certain particulars and criticized it sharply.

The colonel's speech came at the end of the first ray of his week of campaigning through West Virginia, Kentucky, Illinois and Pennsylvania.

He delivered fifteen speeches today. All but two were given at railway stations from his car. Everywhere he found large crowds and a cordial reception. The speech to night was delivered in an auditorium.

In his recent speech at Philadelphia, Col. Roosevelt said: "President Taft stated that he was a progressive and this raises the question as to what a progressive is."

The colonel gave his definition of a progressive on the basis of which he undertook an analysis of the attitude of the administration toward a number of questions. He took up the railroad rate bill, enforcement of the pure food law, the conservation question and other subjects which have engaged the attention of the administration. Four years ago Col. Roosevelt said Mr. Taft was supported by the progressives and opposed by "representatives of special privilege."

Speaking of the courts the colonel asserted that when the president supported "those courts which declare that the people have no power to do social justice," that he "shows himself a reactionary."

The greatest crowd of the day was met at Lexington. Here the colonel was unable to make himself heard from the platform of his car and attempted to go to the steps of the station. He was caught in the jam and had a hard struggle before he was finally able to extricate himself.

Leaving Louisville late to night Col. Roosevelt is due at Cincinnati at 7:25 a. m. to night. He will remain there for only a few minutes. The colonel's secretary was at work to day upon the itinerary for the remainder of the journey into Illinois and Pennsylvania having been declared upon so hastily that it was impossible to map out the detailed program in advance.

STATE TAKES HAND

Strenuous Measures Being Taken to Starve Out Court House Assassins at Large.

Hillsville, Va., April 3.—The state of Virginia took a hand to day in the campaign to starve the two free court house assassins out of their mountain stronghold.

Governor Mann issued a proclamation calling upon all citizens to withhold aid from Sidna Allen and Wesley Edwards, the only two uncaptured members of the outlaw troop that shot up Carroll county court house nearly a month ago, and promising prompt prosecution for any persons who do assist them.

This action had been arranged after conferences with the heads of the posse and to day two detectives rode twenty miles to Fancy Gap section and arrested Jordan Edwards, a cousin of Wesley and one of the Allen kinsmen, and locked him up on a charge of being an accessory after the fact to the court house murder.

The posse's hunt to day was not successful.

Folk and Stephens Appear as Witnesses in Lewis Trial.

St. Louis, April 3.—Former Governors Folk and Stephens were witnesses for the defense to day in the trial of E. G. Lewis, charged with fraudulent use of the mails in promoting his University City enterprises.

Governor Folk testified that at Lewis' invitation he made a speech to about 3,000 persons attending a convention of the American Woman's league. He said his address did not differ in purpose or intent from many he made during his term as governor.

Stephens testified that he was a director of the People's United States bank until it was put out of business by a fraud order and that he and the other directors of the bank became directors of the Lewis Publishing company.

He testified that after the second class mail privileges had been restored, Lewis seemed to believe his plans would succeed. He said Lewis told him several times the enterprises were losing money, but was always hopeful that they would turn out right in the end.

REBELS FORCED TO RETREAT

FIRST VICTORY GAINED BY MADRID'S TROOPS.

Rebel General Met Strong Opposition When He Attempted to Take Parra—Went Back to Jimenez in a Hurry.

Jimenez, Mex., April 3.—The troops of President Madero gained their first victory in the northern campaign when they defeated the Liberal General Camp, at Parra, and sent him scurrying back to the base at this city.

Instead of finding a handful of defenders at Parra, under General Villa, he was met by deadly fire from a force which he estimated at 2,000 under the command of Generals Villa, Tellez, Urbina and Soto.

Campa opened the fight at dawn yesterday, firing at long range with his artillery. The federal fire, however, forced him to retire. He lost three killed and twelve wounded.

The presence of the federals in force at Parra, and the knowledge that another government force is approaching Escalante, seemed to indicate that the rebels must abandon their campaign against Torreón, and defend themselves in a decisive battle in the neighborhood of Jimenez.

General Orozco now faces an enemy on his flank at Parra, and another coming from the south.

Campa left here Monday with 800 men and met no opposition until he front of Parra.

The federals gave chase when Campa retreated. The latter left a rear guard of 400 under Major Quevado of check and harass the federals. This he succeeded in doing while Campa returned to the base.

As the government troops south of Escalante are in less immediate danger, General Orozco intends to center his attack on Parra. Campa will serve as the new base for this campaign.

Some of the witnesses have been President Vincent of the University of Minnesota, Henry Pratt Judson, president of the University of Chicago and Dr. Emil G. Hirsch, head of Sinai Temple.

PROHIBITIVE TAX ON MATCHES

OBJECT IS TO PUT INDUSTRY OUT OF EXISTENCE.

Senate Passes House Bill Taxing White Phosphorus Matches to Death—Bailey Criticizes Labor Agitators and Women.

Washington, April 3.—In the face of a bitter attack by Senator Bailey the senate to day passed the Eschbacher bill to put a prohibitive tax upon the manufacture or importation of white phosphorus matches. Mr. Bailey called the measure a monstrously and spoke pointedly of the fact many women had demanded its passage.

"When the labor agitators and the women get through running this congress there will not be a shred of the constitution left," he said.

The senator quoted Little Shakespeare and said that Portia was a subterfuge out of her argument before the court which tried Shylock's claim.

Senator Lodge had the bill in charge and when Senator Bailey spoke of agitators, he referred to the friendship between the senator and a former producer of "Col. Roosevelt" (Col. Roosevelt is characterized as well), and whom he characterized as "the most pernicious of agitators."

Senators Gallinger, Martine, Cummins and Borah defended the bill and it was freely admitted that its object was to tax the white phosphorus match industry out of existence in this country.

Senator Crawford's bill looking to an international inquiry into the high cost of living today was ordered favorably reported by the senate committee on foreign relations. The series of questions to be proposed will be several days in course of preparation.

The bill would provide that no injunction, whether interdictory or permanent, be issued by any federal court without previous notice and an opportunity to be heard on behalf of the enjoined with certain exceptions. Under the terms of the bill it must appear to the satisfaction of the court from the evidence shown that immediate or irreparable injury or loss is likely to be done to the complainant unless an injunction is issued without notice and if it be shown that damage might ensue before an injunction be issued without notice, a temporary restraining order without notice may be issued.

ATHLETICS AT ILLINOIS COLLEGE

PROSPECTS FOR STRONG TRACK TEAM AND BALL CLUB.

Coach Harmon is Collecting Fast Bunch For Season's Work—Whipple Team to Enter Illinois Valley Athletic Association.

Warm weather, permitting outdoor practice, has given athletic activities on the hill a sudden boom. Candidates for the baseball and track teams have shown up in unexpected numbers so that each afternoon the athletic field presents a very busy appearance.

Baseball Men Practicing.
The baseball men have put in two afternoons this week of good solid work outside. Sore arms are rare because the players have been practicing steadily indoors since the basketball tournament and consequently were ready to take to the diamond as soon as the weather and the condition of the ground permitted.

At present it seems that an almost entirely new team will represent the college this year, but it is a promise to be a considerably better balanced team than last year's aggregation. The 1911 team was weak at the bat and slow on the bases, but, relying upon Hedgecock's masterly pitching, backed by fast, clean fielding, the players were able to put up a good game.

New Men on Ball Team.

Captain Hedgecock will again be the mainstay of the pitching department. This is his last year in college and he is determined to make it the best of his career. Darragh, last year's catcher, will be in his old position behind the bat. After having worked together last season, he and Hedgecock will be able to puzzle many a batter in the coming games. Goodwin, a new man, comes with a good reputation as a fielder and handles himself well, but little can be told of his real ability until he is given a trial under fire. Buchheit and Warren of last year's team together with Jaccard and Johnson, both new men, appear to be the most likely candidates for infield positions. Clowes, a '11 man; Ross, Russell, Apple, Eagan and Hunziker, all new men, will in all probability strive for the outfield positions. Other new men who have not yet had an opportunity to show their ability, are Wall, Bush, Sooy, Taylor, Blacketter, Smith, Pierce and Long.

Whipple Team Enters Meet.

The track men are also busy. Arrangements have been made to enter a Whipple team in the second annual meeting of the Illinois Valley High School Athletic Association, which will be held in Chicago on Friday, April 26. This is the first step in Coach Harmon's policy of gradually forming academy athletic teams distinct from the college teams. The academy team which will represent Whipple this spring will not be a strong one but there are several men who will in sure point, miners. Prince, the giant shot-putter, should easily win his event. Morrison in the running high jump and Hunziker in the pole vault will be strong contenders. The other men are an unknown quantity.

List of Events.

The list of events to be contested are:
50 yard dash.
100 yard dash.
220 yard dash.
440 yard run.
880 yard run.
1 mile run.
Pole vault.
High jump.
Running broad jump.
Standing broad jump.
Shot put (12 lbs.).
Hurdle run (12 lbs.).
Discus throw.
Relay race.

Medals will be given to the winners of first and second places in each event. A banner will be awarded to the team which scores the most points and one will be given to the team which wins the relay race.

Illinois College Officials.

Last year's Coach Harmon, assisted by Roy Hedgecock, officiated at the first meet of the Illinois Valley Association. Supt. W. L. Hagan of the Griggsville schools, president of the Illinois Valley Athletic Association, has asked Coach Harmon to referee the coming meet and to furnish a starter and timer from Illinois college.

DROPPED FROM TEAM.

Urbana, Ill., April 3.—Captain Vangundy, an outfielder, Herbert Kemman, pitcher; F. J. Napysink, catcher, and C. R. Light, second baseman, were dropped from the Illinois baseball squad on the eve of its southern trip to Knoxville. The four confessed to having violated rule 13 of the conference against playing summer baseball. Much discontent is expressed by the undergraduate body at the severe ruling. A demand that the conference reconsider the eligibility problem is threatened.

ACCUSED OF BEING INSANE.

Dubuque, Iowa, April 3.—John Dickson, twice tried on charges of having started fires which caused a loss of almost \$1,000,000 and liberated each time, to day was arrested on a complaint of his mother that he is insane.

NEGRO "VOODOO DOCTOR."

Denies Statement Made by Negroes Who Confessed to Murders.

Lafayette, La., April 3.—Joseph Thibodeaux, the negro "voodoo doctor" from whom Clementine Barnabe, the negroess who confessed to murdering seventeen of her race, said she bought "candle-bugs" was brought here under arrest late to day from New Iberia. Clementine identified Thibodeaux as the person who sold her the "candlebugs."

The "voodoo doctor" said he effected cures of illness by the use of roots and herbs and explained his queer plans to restore health. He said one plan was to give the ailing persons a piece of paper upon which was written 25 letters in five lines. He explained that if the patient tore off one letter, rolled it into a pill and swallowed it every time the patient "felt bad" he would be cured of the disease, domestic troubles or anything else.

He said a person possessing one of these papers with the written letters would never fall into the hands of his or her enemies. He denied every statement made by Clementine.

WISCONSIN PRIMARIES.

Milwaukee, April 3.—Late returns to night summarize the primary situation as follows:

Wilson certain of four delegates at large and six districts. Clark gets two districts, a third is in doubt, and two other districts are probably the scene of conflict, for while Clark delegates were elected the preferential vote was for Wilson and the Wilson men insist that the Clark delegates vote for Wilson because of the primary majority against their personal preference.

It was generally conceded to night that United States Senator Robert M. La Follette had defeated President Taft on the Republican ticket by approximately 120,000 to 150,000 votes.

GORE TALKS FOR WILSON.

Oklahoma Senator Made Two Addresses in Chicago.

Chicago, April 3.—United States Senator T. P. Gore, of Oklahoma, made two addresses here to night in favor of Governor Woodrow Wilson of New Jersey for the Democratic presidential nomination. The senator defended Governor Wilson for having changed his views on the initiative and referendum. He said that Mr. Wilson followed illustrious examples in changing his mind. "Col. Bryan certifies to the sincerity of Governor Wilson's change of heart," Senator Gore said. "If Wilson is good enough for Bryan, he ought to be good enough for any progressive Democrat. He is the only Democrat who is making a nationwide campaign to day."

Senator Gore starts his down state tour of Illinois tomorrow. His itinerary includes Paris, Sullivan, Effingham, Mount Vernon and East St. Louis.

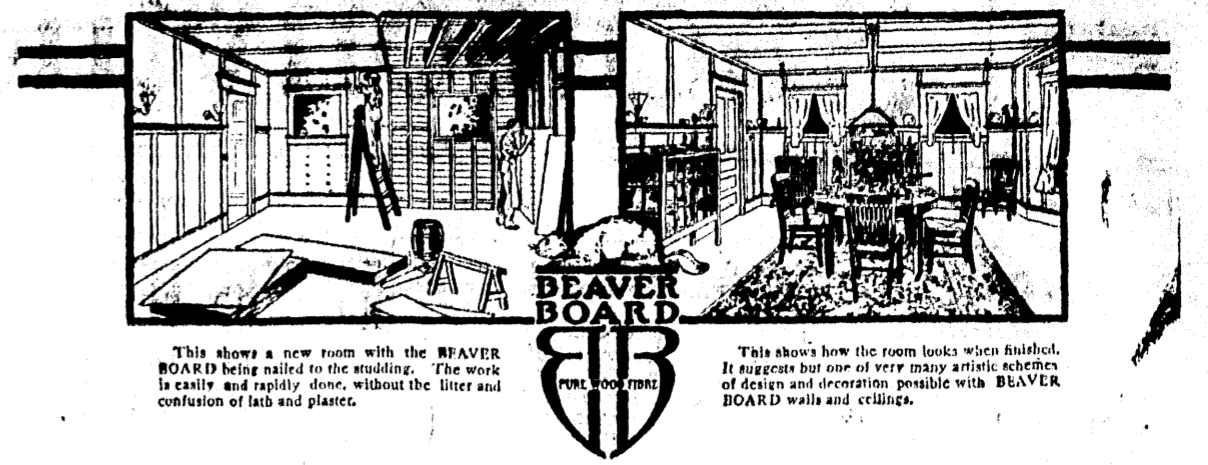

INSURGENT WOODMEN.

Springfield, Ill., April 3.—Insurgent Modern Woodmen of America adopted a resolution at a meeting of the executive committee appointed to conduct the fight against the increase in the insurance rates to night to the effect that no candidate for state or national office will receive the support of Modern Woodmen unless he pledges himself to support legislation forbidding any increase in fraternal insurance rates without a referendum vote by the entire membership of the organization.

Woodmen of the entire state will be asked at the state convention, to be held at Elgin, April 17 and 18, to take similar action and the Republican and Democratic state conventions will be asked to include a plank on fraternal insurance legislation in their platforms.

EXPELLED FROM CITY.

San Diego, Cal., April 3.—The authorities to day began the expulsion of the Industrial Workers of the World, members of which caused rioting yesterday. Thirty men were taken to the city limits and ordered to walk in a direction away from San Diego. A guard has been placed at the line to prevent the return of the undesirables.

THE ONLY WAY.

Many Jacksonville Citizens Have Discovered It.

Just what to do when the kidneys are affected, is a question that concerns both young and old. Weak kidneys neglected in childhood lead to life-long suffering. People of advanced years, with less vitality, suffer doubly. In youth or age, languor, backache, urinary irregularity, dizziness and nervousness make life a burden.

There is one remedy that acts directly on the kidneys. Doan's Kidney Pills owe their world-wide fame to the fact that they have cured thousands of cases of sick kidneys and cured them permanently. Follow the example of this Jacksonville citizen.

J. M. McCullough, 211 1/2 East State street, Jacksonville, Ill., says: "I have taken Doan's Kidney Pills and consider them to be a good kidney remedy. When I feel in need of a kidney tonic, I procure Doan's Kidney Pills at Armstrongs' drug store and they always benefit me."

For sale by all dealers. Price 50 cents. Doan's Kidney Pills, Buffalo, New York, sole agents for the United States.

GAVE NEWLY WEDS CHARIVARI.
Immediately at the conclusion of the marriage of Mr. Ralph Ford and Miss Helen Masters Wednesday evening in the neighborhood assembly on the premises of the Masters home, and proceeded to give the newly weds a genuine charivari.

The groom, however, soon quieted the disturbance by appearing at the door and giving the captain of the company two silver dollars, which they were advised might go toward the purchase of choice cigars.

The "Child's Welfare" movement has challenged the attention of thoughtful people everywhere. Mothers are natural supporters, and will find in Foley's Honey and Tar Compound a most valuable aid. Coughs and colds that unchecked lead to croup, bronchitis and pneumonia, yield quickly to the healing and soothing qualities of Foley's Honey and Tar Compound.

ILLINOIS LODGE INITIATION.

Eight candidates were given work in the second and third degrees Wednesday night by Illini lodge No. 1, 1014 O. St. The lodge makes a total membership of 507 for this lodge, all of whom are in good standing. Illini lodge has been making a steady gain this winter and now is second largest in the state. The plans for the new building, which is to be erected on East State street, will be presented by the committee at the regular meeting Tuesday night when a full attendance is desired. Those given the work last night were D. H. McCarty, John Shadd, Eliza Stephens, Earl Johnston, Arthur D. Cady, Lloyd D. Caywood, Percy Cherry and Fred Davey. Following the initiation light refreshments were served and a smoker was enjoyed.

IS ABLE TO BE OUT.

The many friends of Charles Samples were glad to see him out on the streets for the first time Wednesday. It will be remembered that Mr. Samples fell from the top of a street car on the square and was seriously injured. He has been at Passavant hospital for 24 days and it is needless to say that there is no more happier man to be out doors again than Mr. Samples and all his friends are rejoicing with him.

craftsmen, some of whom have spent their entire
lives in perfecting themselves in the art of basket
weaving. The workmanship is not only the best that
can be produced, but the materials are of the highest
quality that can be had anywhere. In addition to the
odd and quaint constructions one of the chief charms
of our baskets lies in the artistic colorings. The soft,

FAVORABLE TO MR. RUSSELL.
Newspapers in all parts of the state are commenting in a favorable way on the candidacy of Andrew Russell for the Republican nomination for state treasurer. Mr. Russell's wide acquaintance through Illinois coupled with the fact of the good record he made when he held the office for two years is no doubt responsible for this comment. While he was treasurer he paid into the state nearly \$1,000,000 in interest and more than \$2,000,000 in inheritance tax collections. Long experience in the banking world has fully qualified him for the important post he is seeking.

DELAY PRINTING BALLOTS.

Work Held Up by Court Action in Cook County.

Chicago, April 3.—Possible danger of delaying the printing of the ballots so far as Cook county is concerned in time for the primary elections next Tuesday, was seen in a decision rendered in the superior court to day, ordering that the names of municipal court judge candidates be printed in the order in which they were filed with the city clerk instead of as they were filed with the board of election commissioners. Judge Cooper said he would issue a mandamus stopping the present printing of ballots and it is said, quick action will be necessary to adjust the differences of the contending sides to have the ballots completed in time.

To day's decision followed a complaint filed by Democratic National Committeeman Roger C. Sullivan.

GAVE SURPRISE PARTY.

A company of young people recently gave a surprise party for Edmund Dinwiddie at his home near Acadia and the occasion was one of great enjoyment. Music was a keen feature of the evening's entertainment, the program consisting of several violin numbers by Mr. Dinwiddie, a duet by W. J. Houston and Miss Alma Ogle, a number of readings by Miss Lula Mawson, and an instrument solo by Darice Allen. A number of games and contests were also played, W. J. Houston being the most successful in these. During the hours elegant refreshments were served. Owing to the condition of the roads the guests made their way to the Dinwiddie home on horseback.

She was born near Exeter, Sept. 17, 1897, and was 15 years of age at the time of her death. Her mother preceded her in death nine years ago and she is survived by her father, Frank Cox of Chapin, and one brother, Harold, who makes his home with his aunt, Mrs. Roy Rutherford of this city. FAVORS GOOD ROADS.

Y. Sherman Advocates Employment of Convicts.
Chicago, April 3.—The use of convict labor in the preparation of road material and a federal subsidy for state roads were urged by former Lieut. Gov. Sherman before the women's state good roads convention here to day.

"The labor would be beneficial to the morals of the convicts," he said. "It would greatly help in construction of good state roads. It would not come into competition with free labor."
The federal government should bear a portion of the expense of highway building. Steam roads were sustained by land grants from the public domain. Public roads should be assisted. Illinois will forever remain an agricultural community. Good roads are vital to the state.
Representative Lynden Evans of Illinois, urged good roads advocates to unite on the Underwood good roads bill now before congress. It calls for construction of roads under three systems, the cost ranging from \$10,000 to \$30,000 per mile, the type for each locality to be determined by a federal commission.
Other speakers of the afternoon were Miss Anna Nichols of the Illinois Federation of Women's clubs and Mrs. Henry Dunlap of Savoy, Ill.

PEACE WITH HONOR.
London, April 3.—"It will be peace with honor and the men will return to work," said Thomas Ashton, secretary of the miners federation to night. But pending a scrutiny of the ballots tomorrow he was not able to give the figures. Other delegates, who arrived in London this evening to attend the meeting of the federation tomorrow, agreed there will be too small a majority against resumption of work to justify a prolongation of the conflict.
Work in the coal fields is rapidly extending. Large numbers have resumed on the Staffordshire and it is stated that 20,000 men in this district will be back in the pits tomorrow.

KNIGHTS OF PYTHIAS.
Springfield, Ill., April 3.—At the district convention of the ninth district of the Knights of Pythias, held in this city to day, at which thirty lodges were reported, Dr. Arthur E. Walters of Springfield was re-elected state deputy grand chancellor. Grand Chancellor Charles L. Ritter of Murphysboro and other grand officers of the state were present. The next annual convention will be held in Carlinville, April 12, 1913.

LICENSED TO MARRY.
Ralph T. Ford, Greenfield; Helen Ruth Masters, Jacksonville.

MATRIMONIAL RECORD

Ford-Masters.
Miss Helen R. Masters and Mr. Ralph T. Ford were united in marriage at 7 o'clock Wednesday evening at the home of the bride's father, Frank M. Masters, north of the city, the ceremony being impressively performed by Rev. W. S. Phillips, pastor of Ebenezer M. E. church, in the presence of about fifty guests. Mrs. Edgar Martin played Lohengrin's wedding march as the young people entered the parlor and before the ceremony rendered "Flowers and Ferns."

The bride wore a beautiful dress of applique chiffon with lace and pearl trimmings and carried a handsome bouquet of roses and ferns.
Following the ceremony an elaborate wedding supper was served. For the occasion the home was beautifully decorated, red being the prevailing color in the dining room, while in the parlor green and white predominated.

The contracting parties are young people of sterling worth, belonging to excellent families. The bride is a daughter of Frank M. Masters and was born and reared in this county. She is a member of Ebenezer M. E. church, and has been very active in the work of the various organizations. For some time she has been pianist for the Sunday school and has also been of great assistance with the vocal music of the church as she possesses a clear, rich soprano voice, which has been heard with great appreciation on many occasions. Mrs. Ford took a special course in voice at the Illinois Woman's college, following her graduation from the local high school in 1909. By reason of her many qualities she has endeared herself to a host of friends, who will unite in the extending of heartfelt congratulations.

The groom is a son of Thomas Ford of Greenfield. He is a young man of strict integrity and marked industry and like his bride has manifested much interest in church work, being an active member of the M. E. church at Greenfield.

The young people received many presents, among which was a silver tea set from the Ebenezer Sunday school, expressive of appreciation for the valued services of the bride to the Sunday school.

Mr. and Mrs. Ford left at 11:15 o'clock last night for Wheatland, Wyo., where they will visit at the home of the bride's brother, James Masters. Upon their return they will take up their residence on a farm near Greenfield.

Among those from a distance to attend the wedding were Thomas Ford, Misses Edith and Stella Ford, Mr. and Mrs. W. T. Parks, Mr. and Mrs. J. H. Parks and Frank Ford of Greenfield, Royal Oakes of Bluffs, Miss Mary Adams of Waverly, Earl Emmerson of Alton, Mr. and Mrs. Buell Cuddy of Greenfield, Mrs. Burge of Decatur, and Mr. and Mrs. Ernest Walter of Arhoid.

Savage-Maines.
The marriage of two well known and popular residents of Virginia, Cass county, was celebrated when Henry S. Savage and Miss Edith Maines were wedded at the home of the brides parents, Mr. and Mrs. A. C. Maines, in Virginia at 5 o'clock Tuesday evening by Rev. John J. Wilson, pastor of the Presbyterian church.

Mr. Savage is engaged in banking in his home city and is well known as a successful and honorable business man by a large acquaintance in Jacksonville and the adjoining counties. Mrs. Savage has a large circle of friends in this city, where she has frequently visited. The bride couple have gone on an extended trip through the east.

MISS CALDWELL CALLED "AMERICAN TETRAZZINI."
Miss Gladys Caldwell, the charming prima donna of the Sheehan English Opera company, stands in an unique position among the great singers of this country. Not since Tetrazzini electrified the world with her flute-like voice, has this country heard any one equal to Miss Caldwell in the field of song. Not only has Miss Caldwell a most remarkable voice but she is also a most charming personality, and her excellent work as the mechanical doll in "The Love Tales of Hoffmann" has proved a revelation. Miss Caldwell will be heard at the Grand opera house Tuesday eve, April 9.

THE EMPORIUM.

Whereas, Almighty God, the Universal Ruler, has seen fit in his infinite wisdom to call from our midst a respected and worthy citizen, Joseph Heint, and

Whereas, this board feels especially indebted to him for many acts of kindness during its existence; therefore, be it

Resolved, That we, the board of the village of South Jacksonville, assembled in regular session, do hereby extend our heartfelt sympathy to our fellow member trustee, O. B. Heint, and also to the family of the deceased. In this, their sad bereavement; and be it further

Resolved, That a copy of these resolutions be spread upon our record and a copy be sent to the family.

Elmer E. Beasall, James McGinnis, Herman Weber, Committee.

A report was heard from the committee on streets and alleys and they were instructed to proceed to dragging the streets today as the thoroughfares could not be in much worse condition.

There was a general discussion regarding the contract the board had made with the Jacksonville Railway and Light company several weeks ago relative to furnishing lights for the village. The board is anxious to have the lights installed and voted to have the light company proceed with the work at once.

C. Riggs Taylor, the newly appointed village treasurer, took his oath of office last night. He is to furnish a bond of \$2,000 and have the same ready by the next meeting time.

The large quantity of broken limbs in the streets and roadways was the subject of much discussion by the board. It was the sense of the board that each citizen should see that the debris in front of his own property should be removed. If this is not attended to the board will proceed to have the same done at the expense of the property owners. There was also some talk about the property owners who wished to build concrete walks and the board expressed a willingness to assist in this matter but desired the property owners to take the initiative.

The village election will take place Tuesday, April 16, and the next meeting of the board will be held on Wednesday evening, the 17th, at which time a canvass of the votes will be made.

Children's and misses' hats at half the price asked by others. Bring the girls before noon and avoid the rush. Store open evenings all week.

SOCIAL EVENTS.

One of the most delightful events of the season was a dinner given Wednesday evening by Mr. and Mrs. W. A. Furr, at their home on Grove street, in honor of the Clark-Furr wedding party. All the appointments were charmingly made and nothing was left undone to add enjoyment to the occasion. Besides Miss Furr and Mr. Clark, the members of the party are as follows: Miss Lucia Lippincott, maid of honor; Misses Edith Havenhill, Louise Gates, Helen Robinson, of this city, and Grace Poor, of Peoria, bridesmaids; Dorothy Alice Furr, flower girl; Mr. David Clark, best man; Mr. Delbert Tilden, Decatur; Mr. George Koch, Pekin; Mr. Leigh Lucas, Mt. Pleasant; Harry Fuls, Beardstown, fraternity brothers of the groom; Mr. DeMotte Gates and Paul Furr, ushers; Musicians, Miss Mabel Matthews and Miss Irene Thompson.

The home was prettily decorated in a color scheme of pink and white by the use of sweet peas, and the guests were seated at four tables, which were lighted by candelabra. On each table was a beautiful basket of pink and white sweet peas tied with a big bunch of tulips. Each young lady also received a pink corsage of sweet peas. An elegant five-course dinner was served at 6:30, in a faultless manner.

The bride's gift to the maid of honor was a gold crescent pin with pearls; to the bridesmaids, gold bracelets; to the little flower girl, gold bracelet, and to the musicians, corsage bouquet pins. The gift of the groom to the best man was a gold monogram watch fob and to the ushers, silver monogram watch fobs.

JOHN E. W. WAYMAN

Why We Ask You to Vote for JOHN WAYMAN FOR GOVERNOR

We ask you to vote for JOHN WAYMAN because he stands for common decency and common honesty in politics as well as in everything else.

We ask you to work and vote for him because he is not allied, and never has been, with any political machine on earth. He depends entirely on his clean fighting record in the service of Cook County to win your approval and support. He knows no boss but justice, recognizes no political code but the square deal and the best interest of all the people.

We ask you to work and vote for JOHN WAYMAN because he is a clean, straight man's man, through and through, a man who does things, a fighter who goes clear through to the end in spite of all obstacles and no matter what powerful influence may be brought to bear to induce him to stop. The rich and the poor all look alike to JOHN WAYMAN.

We ask you to work and vote for him because he has fought tooth and nail against crime, official graft, jury fixing and legislative bribing every hour since the day he swore faithfully and loyally to serve the people of Cook County.

We ask you to work and vote for him because of his extraordinary record as State's Attorney—a record that has never been equalled in Cook County—a record that shows more convictions of criminals, fewer appealed cases sent back by the Supreme Court for retrial and fewer indictments quashed, than any of his predecessors in that office.

We ask you to work and vote for JOHN WAYMAN because of the splendid fight he waged against the brutal sluggers hired to kill union workmen, because of his bold and brilliant prosecution of graft in the Chicago Police Department, and because of his relentless fight to convict the men responsible for the shameless bribery and corruption in the State Legislature.

And we also ask you as Republicans to vote for JOHN WAYMAN because he will, if nominated, add strength to the Republican ticket in every County in the State. He is the one candidate for Governor who can materially assist in rolling up a big Republican majority at the polls next November. When he was elected State's Attorney he carried Cook County by a plurality of over 55,000; and he is today immensely stronger than he was then because the people have found out in the last three years that he "delivers the goods" even better than he promised.

JOHN WAYMAN was the first State's Attorney ever nominated in Cook County by a direct primary. He was the direct choice OF THE PEOPLE and he won without a particle of help from any machine, or any faction, or any political boss.

Illinois needs a change and needs it bad. Every decent citizen in the State is sick and tired of the brand of politics that has been forced upon us in recent years, and every decent citizen wants to see less politics and more statesmanship in the conduct of the business of this State.

In the name of common decency and common honesty, in the name of clean politics and good government, we ask you to vote at the primaries on April 8th for JOHN WAYMAN FOR GOVERNOR.

DEFINITION OF PROGRESSIVENESS

AS APPLIED TO AMERICAN POLITICS OF TODAY.

Subject of Address Delivered by Col. Roosevelt at Louisville—Defends His Utterance Regarding Recall of Judicial Decisions.

Louisville, Ky., April 3. "Every man who fights fearlessly and effectively against special privilege in any form is to that extent a progressive. Every man who, directly or indirectly, upholds privilege and favors the special interests, whether he acts from evil motives or merely because he is puzzle-headed or dull of mental vision, or lacking in social sympathy, or whether he simply lacks interest in the subject, is a reactionary."

So declared Theodore Roosevelt here tonight in a speech which he devoted largely to defining "progressiveness" as he applies the word to American politics of today.

In his recent speech at Philadelphia, began Col. Roosevelt, "President Taft stated that he was a progressive and this raised the question as to what a progressive is. More is involved than any man's say-so as to himself. A well meaning man may vaguely think of himself as a progressive without having the faintest conception of what a progressive is. Vision and intensity of conviction must both go to the make-up of any man who is to lead the forward movement and mildly good intentions are wholly useless as substitutes."

"The essential difference, as old as civilized history, is between the men who, with force and broad sympathy and imagination, stand for the forward movement, the men who stand for the up-lift and betterment of mankind, and who have faith in the people, on the one hand, and, on the other, the men of narrow vision and small sympathy, who are not stirred by the wrongs of others, and with these men stand those other men who distrust the people, and out of whom at least and must distrust the people but wish to keep them helpless so as to exploit them for their own benefit."

Col. Roosevelt quoted Froude, the English writer, at length as to the two kinds of men, who appear as leaders in times of change, and went on with a declaration largely in elaboration of former utterances as to the lines of action advocated by "we" today who stand for the progressive movement here in the United States.

Merely to announce one's belief in the rule of the people, while openly or covertly trying to prevent such rule from being effective, he went on, "would be demagoguery of peculiarly mean type. Our professions must be backed by the way they square with our actions. The doctrine of the rule of the people amounts to sheer nothingness if we are not prepared to apply it, when the failure to do so means the failure to get and to do justice."

Referring to the method he has advocated of letting the people of a state decide upon the constitutionality of certain acts of their courts Col. Roosevelt declared:

To denounce such a proposition as putting the axe to the tree of freedom, without proposing any more workable or better remedy, is to champion the cause of the special interests, in whose favor, as against the people and against the cause of justice, the courts have decided."

"When, in deference to the reactionaries in congress, the president put a stop to the work of the Country Life commission so that for three years the national government has done little or mark time, or indeed to step backward, as regards this movement, then, no matter how good intentions, his actions ranged him against the progressive side. When the president supports those courts which declare that the people have no power to do social justice, that they by making laws such as those I have above outlined and when he opposes the effort to give to the sober judgment of the people due weight against the decisions of a reactionary court, then he shows himself a reactionary. When the president characterizes a moderate proposal to render effective the sober judgment of the American people as against indefensible and reactionary court decisions in favor of the privileged classes as 'laying the axe at the foot of the tree of well ordered freedom,' then the president is standing in line against the sane and moderate movement for social justice and in favor of privilege, and he ranks himself against the progressives, against the cause of justice for the helpless and the wronged, and on the side of the reactionaries, on the side of the beneficiaries of privilege and injustice."

add ROOSEVELT

"Four years ago the progressives supported Mr. Taft for president, and he was opposed by such representatives of special privilege as Mr. Penrose of Pennsylvania, Mr. Aldrich of Rhode Island, Mr. Gallinger of New Hampshire, as Messrs. Lorimer, Cannon and McKinley of Illinois, and he was opposed by practically all the men of the stamp of Messrs. Guggenheim and Evans in Colorado, and Mr. Patrick of California of San Francisco. These men were not progressives then, and they do not pretend to be progressives now. But, unlike the president, they know who is progressive, and who is not. Their judgment in the matter is good. After three and a half years of association with and knowledge of the president, these men and their fellows are now the president's chief supporters, and they and the men who feel and act as they do in business and in politics, give him the great bulk of his strength. The president says he is a progressive. These men know him well and have studied his actions for three years, and they regard him as being precisely the kind of progressive whom they approve. However good the president's intentions, I believe that his actions have shown that he is entitled to the support of precisely these men."

"The Republican party is now facing a great crisis. It is to decide whether it will be as in the days of Lincoln the party of the plain people, the party of progress, the party of social and industrial justice; or whether it will be the party of privilege and of special interest, the heir to those who were Lincoln's most bitter opponents."

"Prosperity can only permanently come to this country on a basis of honesty and of fair treatment for all. Those men of enormous wealth who bitterly oppose every species of reform, those who control the country through their governmental agencies, over the business use of that wealth are, I verily believe, most shortsighted as to their own ultimate interest. They should welcome every effort to make them observe and to assist them in observing the law so that their activities shall be helpful and not harmful to the American people. Most surely if the wise and moderate control we advocate does not come some day, these men or their descendants will have to face the chance of some movement of really dangerous and drastic character being directed against them, and stand for the adequate control, the real control of all big business, and especially of all monopolistic big business where it proves unwelcome or impossible to break up the monopoly. There is a grim irony about that has been produced on Wall street by the complete breakdown of the prosecutions against various trusts, notably the Standard Oil and Tobacco trusts, under the Sherman law. I have always insisted that while the Sherman law should be kept upon the books so as to be used wherever possible against monopoly, yet that it was by itself wholly unable to afford the relief demanded by the American people as against all the great corporations, actually or potentially guilty of anti-social practices."

"Clouds hover above the horizon throughout the civilized world. But here in America the fault is our own if the sky above is not clear. We have a continent on which to work out our destiny; our people are men and women, are fit to face the mighty days of the present contest in any phase of the larger struggle. Assuredly the fight will go on. Our cause is the cause of justice for all in the interest of all. Surely there never was a more noble cause; surely there never was a cause in which it was better worth while to spend and be spent."

Bowels are Basis of Child Health

The careful mother, who watches closely the physical peculiarities of her children, will soon discover that the most important thing in connection with a child's constant good health is to keep the bowels regularly open. Stagnant bowels will be followed by loss of appetite, restlessness during sleep, irritability and a dozen and one similar evidences of physical disorder.

At the first sign of such disorder give the child a teaspoonful of Dr. Caldwell's Syrup Pepsin at night on retiring and repeat the dose the following night. If necessary—more than that will severely be needed. You will find that the child will recover its accustomed good spirits at once and will eat and sleep normally. This remedy is a vast improvement over salts, cathartics, laxative waters and similar things, which are altogether too powerful for a child. The homes of Mrs. A. W. Smith, Viola, Ill., and Mrs. L. E. Preslove, 207 So. 15th St., Springfield, Ill., are always supplied with Dr. Caldwell's Syrup Pepsin, and with them, as with thousands of others, there is no substitute for this grand laxative. It is really more than a laxative, for it contains superior tonic properties which help to tone and strengthen the stomach, liver and bowels so that after a brief use of it all laxatives can be dispensed with and nature will do its own work. Anyone wishing to make a trial of this remedy before buying it in the regular way of a drugist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. H. Caldwell, 405 Washington St., Montreal, Ill., your name and address on a postal card will do.

A Tyrant and a Terror.

It has been said the life of Frederick the Great as a boy under his father, Frederick I, first king of Prussia, was worse than that of Oliver Twist or Smike at Dotheboys Hall. The old king was a tyrant of the worst description, and his own family experienced him at his worst. Frederick as a boy received instruction in music and French from refugees in Berlin, but when the king learned of it he stopped the music peremptorily.

The lad had little liking for military pursuits. His father suspected his son of heresy without having any clear idea of what his own theology really was. Once in a rage the king almost strangled his son with a window cord, and at length matters were brought to a crisis by the prince running away. It was only through diplomatic intervention that Frederick's life was spared, for he was a soldier, and he had been guilty of desertion. In his father's eyes this was a heinous offense and so grave that a friend who was associated with the prince in his "rebellion" suffered the extreme penalty.

Name Unknown.

The men were eating their lunch in the temporary headquarters of the chief electrician when the telephone bell rang. Terry answered.

"Hello. Yes, this is the place, mum. What's his name again? Stewart, is it? No, there ain't nobody by that name here that I know of. Boys, does any of you know a man around here by the name of Mr. Stewart?"

"Not I," said Pat.

"Nor I," said Mike.

Phelim and Aloysius shook their heads.

"There's nobody here knows who you want, mum," said Terry to the phone.

He returned to his dinner pail and a moment later suddenly laid down his sandwich and shouted:

"Boys, do you know who the man Stewart is that the lady wanted? Be gorry, it's the boss!"—Newark News.

Dickens' Tidiness.

Authors, as a rule, are not famed for tidiness, but Dickens was an exception. "There never existed, I think, in all the world a more thoroughly tidy or methodical creature than was my father," wrote his daughter Mamie. "He was tidy in every way—in his mind, in his handsome and graceful person, in his work, in keeping his writing table drawers, in his large correspondence—in fact, in his whole life."

But he could be a fidget also, for example, in regard to the furniture in a room in a hotel. He might be staying only a single night, but if it did not please him he would rearrange it all, always turning the bed north and south to meet his views of the electrical currents of the earth.

Lincoln at the Ball.

Lincoln married Miss Mary Todd of Kentucky. He met her, the story goes, when he was first elected to the legislature of Illinois at the governor's ball in Springfield, the state capital.

Said he to the lady, "Miss Todd, I would like to dance with you the worst way."

She was agreeable, and they joined the throng.

"Well, Mary," said a friend when he had escorted her back to her place, "how was the dance?"

"Why, just as he said," Miss Todd replied; "the very worst way."

Hissing in the Theater.

Formerly there was no hissing in the theater. The benevolent audience was content to yawn and fall asleep. The invention of hissing is no older than 1880 and took place at the first representation of "Asper" a tragedy of Fontenelle, so we are told by the poet R. in his "Brevet de la Calotte." A farce was produced in Baumstern's time under the title of "Fire and Water." "What fate?" whispered the anxious audience at his side. "What fate?" said Baumstern. "Why, what can fire and water produce but a hiss?"

Always a Way.

"I am beginning to fear," said the Rev. Mr. Goodman, "that I may be infecting too much humor into my sermons. The congregation may fall into the habit of neglecting to take me seriously."

"Oh, don't worry about that, dear," his wife replied. "Whenever you begin to notice that they are not taking you seriously just ask them to raise your salary."—Chicago Record-Herald.

The Name Kentucky.

It is the opinion of many authorities that the Indian word Kentucky did not signify "dark and bloody battle-ground," as many have supposed. They incline to the belief that the word means "at the head of a river" and that it was used to designate the place where the Indians gathered previous to migration southward. This spot was near the source of the Kentucky river.—New York Press.

The Wednesday class met at the home of Dr. Grace Dewey with Dr. Dewey and Miss Maria Fairbank as hostesses. There were present as guests of the "class," the Sorosis, the History Class and invited guests. Dr. Carl E. Very fine charts were used in illustration of the various points discussed.

At the close of the lecture a social hour was enjoyed during which refreshments were served and the opportunity was given to individually thank Dr. Black for his most carefully prepared and progressive lecture.

Estimating the Damage.

The wagon and the eggs had been settled for, and now it came to deciding on the value of the farmer's horse, which lay unquestionably dead in the ditch.

"Now," said Winkles, leaning back in the tonneau, "how much do you want for the horse?"

"Twenty dollars, I guess," said the farmer.

"Twenty dollars?" echoed Winkles. "For that old skate? Why, he's nothing but a fat rack—a perfect plug."

"Waal," drawled the farmer, "reckon on that there basis, the last time I got a skate on it cost me \$9. Ye can't git a fat rack fittin' to be seen for less'n \$12, and, as for the plug, I paid \$4 for the last beaver hat I bought to wear to meetin'." Tree Fences.

In his book on Newfoundland P. T. McGrath has this to say of the Beothic Indians: "They felled trees to form fences to stop the caribou in their annual migration and head them toward the rivers, where they could more easily kill them. Travelers who subsequently came upon these fences say they often extended thirty or forty miles and were most ingenious in their construction, the trees being cut so that they fell on one another and their branches being then interlaced in such a fashion as made it impossible for the deer to escape."

MAGILL FOR U. S. SENATOR

"The voters of Illinois have the greatest opportunity since the civil war to select the right man for the United States senate in Senator Hugh S. Magill," says the Joliet Daily News. This sentiment is also being expressed very largely over the state and has peculiar interest from the fact that for the first time in Illinois is a trial of strength to be made between the progressive and the stand-pat forces within the Republican party, which has resulted in sixteen progressive Republican senators being elected to the United States senate.

Senator Hugh S. Magill, the progressive candidate for United States senator, is engaged in a state-wide canvass. His campaign appeals to those who wish to see a change in present methods and a return to real representative government, and the enactment of constructive legislation that will not only be just to the business interests but to the people as well. He has not only the solid endorsement of the Roosevelt and La Follette Republicans of the state, but his candidacy has been warmly commended by Governor Johnson, Gifford Pinchot and others of national repute.

In his campaign, Senator Magill has been getting close to the people, to that class known as the "silent voter," those who are not politicians but who quietly work and vote for clean politics and honest government. His principal aim has been to get the message of the progressive movement to the people.

To those who are opposed to Senator Culberson because of his vote for Lorimer in the United States senate and who are opposed to L. V. Sherman because of his vote for the pernicious Allen bill and his reactionary attitude, Senator Magill appeals as the man of the hour, because his record is clean and his principles are sound.—Dixon Daily Telegraph.

FARMER'S CONDITION WORSE EACH YEAR

Letter From Iowa Man Presents Interesting Facts for Other Sufferers.

"Neola, Iowa, Aug. 19, 1911.
To the Public:

"I am a farmer living on rural Route 1, Neola, Iowa, and I wish to make these few public statements in the hope that they may guide some one else who is suffering as I have suffered to the right doctors and a cure.

Six years ago I commenced to run down in health, having very serious trouble with my stomach, liver, bowels and kidneys. I got so nervous I could not sleep and was unable to do any of my work for a long time. I consulted the best doctors I knew and took their treatment with the result that by the middle of the summer I was able to drag around and manage the work I was compelled to hire others to do. But the same condition came back year after year, only growing worse with each season, until this spring, when I had to give up entirely.

With all these various treatments through all these years I had decided that I would never be well again, especially for the reason that I had lost 40 pounds in the last two months, but as a last resort to gain my health I went to the United Doctors.

I had heard they never accepted a case they could not cure, but when I read under their treatment I really did not expect to be benefited any more than I had been in years past. But now, after just three months of their care and attention, I feel better than I have in years. I eat everything I want and digest it perfectly; have regained my strength and practically all of my lost weight and I sleep like a baby every night.

I feel that I am absolutely cured, but the doctors have advised me to continue their treatment for at least another month to be sure that my cure will be permanent and lasting. I cannot speak in too high praise of the work done for me by the United Doctors.

George Gardner.
The above letter is a fair sample of those that are received daily by the United Doctors. Hundreds of testimonials from cured patients from all over the country are on file in their Jacksonville offices on the second floor of the Farrell bank building. Their new system of treatment has attained a national reputation for curing diseases that could not even be benefited by ordinary doctors.

Consultation and examination are always free at the United Doctor's offices and incurable cases are not accepted for treatment. You are sure of results if the United Doctors treat you.

The Jacksonville institute is open each second Friday and Saturday. The next date on which it will be open is tomorrow and Saturday.

Grain Letter.

Chicago, April 1. Wheat. Heavy under local raising. Bear traders encouraged to work for lower prices by more favorable weather conditions. Crop prospects still very much mixed. Northwestern seeding is under way and will be general by the last of the week. Southwestern traders were free sellers of July, basing their sales on many favorable crop reports. W. W. Shaw does not take such a favorable view, making April condition \$1.12 per cent against \$1.23 per cent last year. Average for 10 years, \$1.01 per cent. Unfavorable crop news from the west was plentiful, but largely ignored. The leading bull appeared to give May considerable support. Current prices for September and July should not be particularly attractive to bear operators. Unfavorable crop reports are sure to come as a result of our severe winter, the distant deliveries which are heavily discounted will prove attractive to investors. We favor purchases of July and September around present level or on further high.

Corn. Realizing overshadowed all other influences. Successful bids more favorable conditions sold freely to collect handsome profits. High prices paid for spot stuff at outside market has increased country offerings and a larger movement temporarily is expected. Elevators are for sell sold out for this run to a very large extent. Bad roads and pressure of farm work will prevent heavy deliveries for the next sixty days or until after planting. The advance has been rapid and further breaks on credit taking may occur. Successes will be counted on, however, to buy freely on the break, as severe slump seems probable and higher prices will likely rule in the near future.

Oats. Heavy realizing sales and much raising by bear operators gave market a weak turn. Fine weather prevails in all directions. The seedling prospect is more hopeful. The Illinois grain dealers report for this month is significant. Last year 85 to 90 per cent of oats seedling was completed with soil and moisture conditions excellent. But July and September oats on the breaks.

Provisions. Like corn, profit taking overshadowed all considerations. The situation still strongly bullish, but the big advance tempt holders to realize some breaks are probable. Take advantage of them to buy provisions.

ER LONG SUFFERING

These Two Women's Health Restored by Lydia E. Pinkham's Vegetable Compound—Read Their Own Statements.

Cheneyville, La.—"Some time ago when in poor health, suffering from female troubles, I began to take Lydia E. Pinkham's Vegetable Compound and Liver Pills. I soon felt better and gained in strength and flesh. A gradual improvement continued as I took the Compound, and from 120 pounds I now weigh 155, and feel that my life has been prolonged.

"I deeply regret that I did not know of your medicine long before I did. Friends often speak of the wonderful change in my health, and I tell them that your medicine did it."—Mrs. J.W. STANLEY, Cheneyville, La.

Distressing Case of Mrs. M. GARY, Chicago, Ill.—"I have used Lydia E. Pinkham's Vegetable Compound for backache and it has certainly made a new woman of me. After my first baby was born I was left a perfect wreck. I was so weak I could hardly do my household duties and suffered with an awful backache. But since I have used your Compound the pains in my back have left me and I am strong again.

"My mother used it also through Change of Life and speaks very highly of it. You can use this letter any way you wish. I think it is only fair for one who has suffered as much as I, to let others know of your great remedy."—Mrs. M. GARY, 253 N. Ridgeway Ave., Chicago, Ill.

WOMAN TOOK STAND

Mrs. Vermilya on Trial for Poisoning R. T. Smith Testifies in Her Own Behalf.

Chicago, April 3.—Testimony for the defense in the murder trial of Mrs. Louise Vermilya for the alleged poisoning of Richard T. Smith came to a climax today when the woman took the stand. She told of Smith's illness in her home and denied emphatically that she ever gave him any medicine except that which a physician prescribed.

Mrs. Vermilya testified Smith never boarded regularly at her residence, although he roomed there, but after he became ill she once served him toast and coffee. She also gave him a glass of water.

"Did you put anything in that water?" asked her attorney, Joseph R. Barry.

"No," she replied.

"Did you put anything in the toast and coffee besides what usually is there?"

"No."

The testimony of J. O. Smith, a brother of the dead man, and that of Mrs. Vermilya, of his suspicion of foul play in connection with his brother's death was denied by the defendant. She said he thanked her for the care she had given him.

Mrs. Vermilya will be cross-examined tomorrow.

The case is expected to go to the jury this week.

"The United States league will be composed of clubs in Chicago, Pittsburg, Cleveland, Cincinnati, Washington, Reading, New York and Richmond," said Nelson.

CURIOUS CLOCKS.

One In a Frying Pan With a Knife and Fork For Hands.

In a Third avenue restaurant there has been for more than twenty years an odd clock on the wall. The clock is placed in a frying pan. The bottom of the pan forms the face of the clock, and the hours are numbered on oyster shells fastened to the pan. The hour and minute hands are a fork and knife.

Other curious clocks stand in out of the way corners of the city. In a dime museum that used to be on the Bowery there stood for many years a huge clock, about the size of the ordinary roll top desk, said to have been made by a cripple with the aid of a fretsaw and a jackknife.

This clock was made of 70,000 pieces of wood of different kinds. It had five dials, showing the time in London, Paris, Berlin, St. Petersburg and New York. There were also dials that indicated the phases of the moon, orbit of the earth, small figures representing the last supper, the crucifixion and other biblical scenes. The quarters, halves and hours were struck on small bells by gnomonic figures made to resemble familiar dwarfs in the Sleepy Hollow scene of "Rip Van Winkle." For many years this clock was the main feature in the museum. It was later bought by a club, it is said.—New York Sun.

BUILT FOR WASHINGTON.

A Philadelphia House the President Refused to Occupy.

The second year of Washington's administration the seat of government was removed from New York to Philadelphia. In the meantime the federal city, Washington, was in building, and the legislature of Pennsylvania voted a sum of money to build a house for the president, perhaps with some hope that this might help to keep the seat of the general government in the capital, for Philadelphia was then considered as the capital of the state.

What was since the University of Pennsylvania was the structure erected for the purpose. But as soon as General Washington saw its dimensions and a good while before it was finished he let it be known that he would not occupy it and should certainly not go to the expense of purchasing suitable furniture for such a dwelling, for it is to be understood in those days of stern republicanism nobody thought of congress furnishing the president's house, or if perchance such a thought did enter into some aristocratic head it was too unpopular to be uttered.

President Washington therefore rented a house of Mr. Robert Morris in Market street between Fifth and Sixth on the south side and furnished it handsomely but not gorgeously.—Exchange.

The Black of the Eye.

The invariable blackness of the pupil of the eye was a puzzle to scientific men until Professor Helmholtz showed it to be the necessary effect of refraction. Sufficient rays are reflected from the bottom of the eye to render visible the parts there situated, but since these reflected rays in emerging from the eye must traverse the same ocular media through which they passed in entering the eye it is evident that they must undergo the same refraction which they underwent as entering rays, only in an opposite direction. The result of this is that the paths of the emerging and entering rays coincide, and the former will therefore return to the source whence as incidental rays they originally started. There is nothing in the pupil to reflect light—in fact, it resembles a window looking into a dark room.

The First Erie Canalboat.

The William Tell was the first boat to pass over the Erie canal from Buffalo to Albany and down the river to New York. Her cargo consisted entirely of hogheads, barrels and bottles of Lake Erie water, part of which was mingled with the waters of the lake of New York on the occasion of the great fête in celebration of the opening of the wonderful waterway. Her passengers included Governor De Witt Clinton, the leader in the canal enterprise, and a delegation of statesmen and distinguished persons from foreign lands and various parts of the United States.

Took It Too.

Some time ago Australia had a remarkably eloquent and witty tailor, who became not only an M. P., but a minister of the crown. To him a new governor made this malapropos remark, "I hear, Mr. Jones, you were once a tailor."

"Yes, my lord, I was."

"And how are you engaged now?"

"Taking your excellency's measure."

—London Chronicle.

One Occupation Less.

A visitor at a small resort on the coast asked one of the men whom he saw at the village store what he did all summer.

"Loaf and fish," replied the native.

"What do you do in the winter?" continued the inquiring visitor.

"We don't fish."

Favors.

Silliness—I can truthfully say I never forget a favor. Cynicism—Nothing remarkable about that. The fellow we accept a favor from seldom lets us forget it.—Philadelphia Record.

Why She Drew Up.

Neil treading from novel—He kissed her on the forehead. The proud beauty drew herself up. Belle—I suppose that was to get her cheek up to the proper height.—Boston Transcript.

"BILLY" SUNDAY

While thousands of men, women and children with tear-dimmed eyes, wept as though their hearts would break, William Ashley Sunday, the peer of all evangelists, delivered his farewell service last Sabbath evening at Wheeling, W. Va., bringing to a close the greatest revival in his career. Choking with emotion, the great audience rose after the sermon and waving thousands of handkerchiefs until the tabernacle represented a picture of the white-caps on the blue waters of the Atlantic, sang "God be with you till we meet again." Here are the data of this greatest revival ever held in this country:

GIVEN PRISON SENTENCE.

Mexico City, April 3.—George I. Ham, president of the defunct United States Banking company, was today sentenced to twelve years imprisonment for three counts of the indictment against him, charging misappropriation of the funds of the institution.

"My little son had a very severe cold. I was recommended to try Chamberlain's Cough Remedy, and before a small bottle was finished he was as well as ever," writes Mrs. H. Sikes, 29 Dowling street, Sydney, Australia. This remedy is for sale by all dealers.

But Parisian Sage is more than a dandruff cure. It makes the hair grow thick and luxuriant. It stops falling hair, and almost immediately stops itching scalp.

It is the favorite hair dressing of the beautiful women of America, because it makes the hair soft, silky and luxuriant, and is not sticky or greasy. Parisian Sage is not a dye. It contains nothing injurious to the hair, but is a scientific combination of ingredients that are hair nourishers.

"I had a terrible itching of the scalp, and my hair fell out, as it naturally would when one is 70 years old. Parisian Sage cured the scalp irritation, and gave justice and new life to my hair, and caused it to grow in. I am so pleased with Parisian Sage that I hereby recommend its use."—Mrs. Helen M. Beadle, Three Rivers, Mich.

Since its introduction into America, Parisian Sage has had an immense sale, and here are the reasons: It is safe and harmless; it cures dandruff in two weeks, by killing the dandruff germ; it stops falling hair; it promptly stops itching of the scalp; it makes the hair soft, glossy and luxuriant; it gives life and beauty to the hair; it is not sticky or greasy; it is the daintiest perfumed hair tonic made. Look for the girl with the Auburn hair on every package.

You take no risk in buying Parisian Sage because it is guaranteed by the makers, the Giroux Mfg. Co., Buffalo, N. Y., to cure dandruff, stop falling hair and itching scalp in two weeks, or money back.
